

## FIRE RAGING IN ATLANTIC CITY

Three of the Great Hotels Are on Fire, and Burning Down.

## CITY IS IN DANGER

At 2 O'clock Over a Dozen Large Buildings Had Been Destroyed.

## FLAMES SPREAD FAST

Atlantic City, N. J., April 3.—A great hotel fire is raging here. The Windsor, Carlton and Lury houses are burning. The interior of the Beech front from Illinois avenue to Kentucky avenue is menaced. More than a half dozen buildings are already burned and the flames are spreading fast. Aid has been sent for from the neighboring cities. The citizens have formed fire brigades and are preparing to stop the spread of the flames by the use of dynamite.

People living in the direction the fire is taking are collecting their valuables and fleeing for their lives. The hotels were crowded with Easter vacation guests and all rushed into the streets. As far as could be learned none were injured. Loss is over \$2,500,000. At two thirty o'clock it is estimated that the loss will reach two and a half millions and the fire is still raging. About three blocks are consumed. A strong gale is blowing up on the coast. When it became apparent that the fire was uncontrollable many guests took the trains for out of town. The greatest excitement prevailed among the residents and property holders. Young's great pier and the Academy of Music are now in ashes. The fire was still spreading at three o'clock. The conflagration forms a wonderful spectacle for thousands on the beach.

More Desperate Every Moment. At 2:30 o'clock the fire had spread to both sides of New York avenue. The situation is growing more desperate every instant. The flames are licking up the famous board walk. At this hour the following hotels in addition to the Academy of Music and Young's Pier are destroyed: Lury, Charleston, Windsor, Stickney, Bryn Mar, Stanford and Berkeley. It is said that a number of people are imprisoned by the walls, but whether or not they escaped in boats is unknown. At 3:45 o'clock the fire was brought under control. Ten hotels were destroyed. The people caught at the end of the Young Pier were all saved.

## AN ELECTION WAR IN SAWYER COUNTY

Sheriff of Hayward, Notifies Governor La Follette That He Cannot Keep Order, Unaided.

Milwaukee, Wis., April 3.—The sheriff of Sawyer county last night called upon Governor La Follette to send troops to Hayward, Wis., to quell a disturbance there over the result of yesterday's election. A new town board and a complete new set of officers was elected yesterday. The old officers refuse to surrender their offices. There have been charges of misappropriation of the funds of Hayward and of Sawyer county flying about for some time. The county officers are standing by the old officers in the contest, according to reports which have been received from there.

The sheriff in his dispatch to the governor says that here is a liable to be serious trouble. Both sides are armed and are determined. There have been many fights, and the sheriff says that he is no longer able to maintain order unaided.

Governor La Follette has sent General Boardman to Hayward. He will arrive there today, and if he needs the troops he can get them from Ashland and Nelsville.

## INVESTIGATING THE BRIBERY CHARGES

Washington, April 3.—Abner McKinley, brother of the late president, was the first witness before the special house committee investigating the charges of bribery in connection with the purchase of the Danish West Indies this morning. Capt. Christman in his "secret report" referred to the witness as one of those connected with him in the scheme to further such purchase. McKinley testified that he had no contract or understanding or contract of any kind with Christmas and denied he had ever brought the matter to the attention of the president. Representative Gardner of New Jersey was also mentioned in the report. He denied any and all connection with Christmas direct or indirect.

Miss Mildred Curtiss returned to Madison this morning after a week's visit with Miss Edith Looms.

## MOVED FROM STATE TO FEDERAL COURT

Washburn, Bayfield and Iron River Railroad Case, Will Be Fought to Supreme Court.

Madison, Wis., April 3.—(Special)—The removal of the Washburn, Bayfield and Iron River railroad case from the state to the federal court, the motion for which was granted by the state supreme court Tuesday, does not mean that the injunction issued by this court restraining Receiver Frost from tearing up the road is annulled. That injunction holds until the case is decided on its merits, unless it should be annulled by the federal court after the case is taken there, but this is not likely to be done, the state having become a party to the protest, against the execution of the former order of the federal court to tear up the tracks. It is very probable that the case, which involves the sovereignty of the state over its railway highways, may be taken to the United States supreme court at once for original trial there. This might have been done when the state first became a party, had it not been essential to get immediate action to prevent the destruction of the road. There is no question, but that an appeal to the supreme court would be taken from the federal circuit court, no matter which way it should decide the case, and the shorter method of taking it there direct is likely to be adopted.

## POPULATION OF U. S. IS 84,433,068

Final Results of the Twelfth Census, Including Island Possessions, Has Been Announced.

Washington, D. C., April 3.—The final results of the twelfth census give the total population of the United States, June 1, 1900, as 84,433,068, with a margin of error of possibly 1,000,000 accounted for by the uncertainty regarding the population of the Philippines. Three countries only have a greater number of inhabitants under their flags—the Chinese, British and Russian empires. The total area of the United States—the term "United States" including all insular possessions—is now 3,690,822 square miles, about one-fourteenth of the entire land surface of the earth. The same three countries exceeding the United States in population also surpass it in area.

## BAILEY AND SPOONER

Two Senators Have a Sharp Encounter on Floor of Senate Yesterday Afternoon

Washington, D. C., April 3.—Bailey, the Young Lochinvar from Texas, and Spooner the Little Giant of Wisconsin, crossed swords in the Senate chamber yesterday. It was one of the sharpest encounters seen in that body in many a day. Oleomargarine was the topic. The senate is to vote on the oleo bill this afternoon, and it is known that the vote is likely to be close. Probably the bill will pass, but the Democrats are virtually unanimous in their opposition, and ten or twelve republicans are understood to be against it. Friends of the oleomargarine bill after a canvass of the senate say that it will however be by such a narrow majority that not until the final vote is announced late this afternoon will either side breathe easy. It is said that the fate of the bill depends largely on the vote of two senators from Ohio who are in receipt of many messages commanding them to vote for the measure. This attempt to dictate how they shall vote has angered them and both may vote against the measure.

## FOR THE POSTAL CURRENCY CHECK

Commission to Form a Plan to Issue Small Notes for Transmission Through the Mail.

Washington, D. C., April 3.—A commission consisting of three officials from the post office department and three from the treasury department, will meet here within a few days, to consider the subject of the establishment of a postal currency. The present plan is to provide for a small currency to take the place of one and two dollar bills, which it is believed will provide a safer method for the transmission of small amounts through the mails.

## TEN THOUSAND MEN IDLE.

Employees of Rochester and Pittsburg Coal and Iron Company Quit. Dubois, Pa., April 3.—All the bituminous coal mines of the Rochester and Pittsburg Coal and Iron Company are idle. The resolutions declaring for a strike were obeyed by all the men and as a consequence 10,000 are idle. The final clause of the strike resolution reads: "No settlement of the question in dispute shall be recognized unless sanctioned by the properly authorized committee and the officers of the organization."

This means that the men will insist on recognition of the miners' union and it is also interpreted as indicating a long struggle for the Rochester and Pittsburg company has refused to recognize union leaders and has insisted upon dealing with its employees as individuals.

## MANY SUFFER IN AN ICY PRISON

Passengers Released After Five Days in Dakota Snow Drifts.

## HUNGRY AND COLD

A Riot for Food is Suppressed, and One Man Cuts His Throat.

## TELL OF HARDSHIPS

St. Paul, Minn., April 3.—Lost for four days and five nights in a huge bank of snow on the Great Northern railway, with no means of communication, with the passengers rioting for food or sobbing from their sufferings with the Arctic cold, and with the worst blizzard in years howling, a through train was found on a siding in a waste of Dakota prairie yesterday.

Passengers Became Insane. Two of the passengers became insane from their sufferings and from want of food, and one, a professor in the university of Washington, tried to kill himself. The rescue was made after the passengers and trainmen had almost abandoned hope. An electrician on the train, working for an entire day, contrived to rig up a crude telegraph instrument, and, climbing a telegraph pole, he tapped the line, and after much work, sent out an appeal for help.

Two great rotary plows started at once from different points along the line, and one, after a terrific struggle with huge drifts, bored its way through to the imprisoned train, brought away a few of the suffering passengers including the man who attempted to commit suicide, and they reached a hospital at St. Paul last evening. The relief train took supplies and coal enough to keep the rest of the passengers comfortable until they can be brought over the line.

Riot for Food in Cars. Over 100 of the passengers were second class, coming through from the coast. Before Friday was over these passengers were hungry. They demanded food. The trainmen and men among the first-class passengers knowing the food would soon be exhausted, refused to allow the ravenous ones in the second class cars to eat more than their scant allowance twice a day.

They insisted that the women and children should be fed first. After some argument and a show of force the hungry ones subsided. They were told that unless they obeyed orders over their short allowance would be cut off.

Kept from Freezing by Snow. Meantime the storm still raged. The coaches were buried in snow over their roofs. This served to keep those inside warmer and probably prevented some of them from freezing to death. The men worked hard devising means to warm the cars, and succeeded in improvising stoves in which they burned such loose timber as they could find near the train.

On Monday afternoon Professor Colegrove of the University of Washington, who was going east on a vacation, cut his throat with a razor.

## TO RESTORE THE GRAVES OF SOLDIERS

Measure Appropriating \$3,600 for Fort Crawford Cemetery, Has Been Favorably Reported.

Washington, D. C., April 3.—The committee on military affairs today reported favorably Representative Babcock's bill for the restoration of the famous old military cemetery on the Fort Crawford military reservation at Prairie du Chien. The work is to be done by the war department. The masonry under the tombstones is to be repaired, headstones are to be placed over the graves of the unknown dead and the names will be recut on the headstones of the known dead. The bill is expected to pass.

## WOOLEN MILLS AT BEAVER DAM SOLD

They Brought \$30,960, and Will Be Opened at Once—An Elopement at Marinette.

Beaver Dam, Wis., April 3.—The Beaver Dam woolen mills were sold this morning at public auction for \$30,960. The purchasers state that the mills will be re-opened at once. The plant was bought by Peter Beule, J. C. Bander, M. A. Jacobs, J. W. Miller, Arthur Zander, B. Pfeffer, Joseph Hurley and two Chicago men. Marinette, April 3.—The officers are looking for John Drensen, widower, and Mrs. Henry Calusen, wife of a Menominee farmer. It is alleged that they have eloped taking with them \$600 belonging to Calusen.

Tribute to Altgeld. Louisville, April 3.—A unique tribute was paid to the memory of John P. Altgeld at today's session of the allied parties' convention. After a resolution of regret had been adopted the convention arose and remained standing for thirty seconds.

## SOME GOOD TOPICS

Notable Men in Educational Circles Will Make Interesting Addresses.

## INTEREST IS INTENSE

Monroe, Wis., April 3.—Monroe is ready with its welcome to the southern Wisconsin Teachers' association, which will meet here Friday for the annual session of two days. W. P. Roseman of Reedsburg, president of the association, will be here tomorrow to assist the committee on arrangements with the minor details. The visitors will be the guests of the city at a public reception at the new armory of Co. H following Friday evening's session. Another feature not expected by the teachers has been arranged by the music committee in the engagement of Mrs. Nettie Booth Weag's concert orchestra, composed of twenty-five local musicians. The orchestra will play at the opening session, at the evening session and for the reception.

All the grade pupils in the public schools including the thirteenth in the kindergarten will contribute to the musical program, each of the eighth grades being down for a chorus in the different sections. The pupils have been spending vacation time in drilling.

Opens Friday Morning. The opening meeting of the association will be held at 9:30 o'clock on Friday morning at Turner hall, when the teachers will be welcomed to the city by Collin W. Wright, president of the board of education. The response will be made by Prof. E. C. Pershio of Plattville. Julia C. Lathrop of Hull house, Chicago, will then give an address on "Public Schools and Democracy," and short talks on the state and public schools will be made by Senator H. C. Martin of Darlington, Assemblyman E. A. Williams of Neenah and Senator E. E. Burns of Plattville.

Upham of Whitewater. The last three will talk on agricultural education.

A Notable Meeting. William George Bruce of Milwaukee will address the school board section on "School Boards and Teachers." Other well-known educators will take part in the section meetings Friday afternoon.

The meeting promises to be notable in the history of the association as the greatest ever held. A larger number of prominent educators has never been secured to participate in and former conference of the association. There is also confidence that attendance at this meeting will make a new record for the association.

## Discuss Prison Labor.

Springfield, Ill., April 3.—Gov. Yates held another conference on the subject of convict labor with representatives of the Federation of Labor and the Illinois Manufacturers' association. A proposition was submitted by the manufacturers and the labor men that an agreed case be taken up and submitted to the supreme court to determine the question of the constitutionality of the system now in vogue for the employment of the convicts at the two penitentiaries.

## Buy Logansport Traction Lines.

Wabash, Ind., April 3.—The Wabash River Traction company, with headquarters in this city, has completed the purchase of the city lines of Logansport, Ind., for \$115,000 cash. ## PROMOTION FOR INSPECTOR KING

Janesville Man Has Been Appointed as Private Secretary in the Postoffice Department.

Washington, April 3.—Another Wisconsin boy has received a promotion in the postoffice department as a result of changes.

J. D. King, formerly of Janesville, and who has been in the postal service for many years as a postoffice inspector, has been transferred from the St. Paul division and is given the position vacated by the retirement of Clarence Dawson, who was private secretary to Postmaster General Smith, but for whom a place as chief examiner of rural delivery carriers was created a short time ago. The position was in the classified service but Mr. King was eligible for transfer. King was removed by the Cleveland administration from his position as postoffice inspector, but was reinstated at the beginning of the McKinley administration. His new position pays \$2,250 a year.

Postmaster General Payne has found a way to circumvent the democrat who is chief clerk of the department. Yesterday H. H. Rand of Milwaukee was appointed confidential secretary to the Postmaster General, with the same salary as that drawn by Chief Clerk Taylor. The Civil Service Commission declined to withdraw the chief clerkship from the classified service. Now a confidential secretary will take the place of the chief clerk.

## ARBOR DAY FIXED: ON FRIDAY, MAY 9

Proclamation by Governor La Follette Urges Teachers and Pupils of Schools to Observe It.

Madison, Wis., April 3.—Following the custom which has been observed for a number of years, the governor has issued a proclamation asking all the schools of the state to observe Friday, May 9, 1902, as Arbor and Bird Day, and an Arbor and Bird Day annual has been compiled by State Superintendent L. D. Harvey and will be sent to all the schools of the state to suggest to parents, teachers and pupils some of the lines of work which may be attempted in the proper observance of the day.

The cover for this year's annual is very artistically gotten up. The design is a conventional one and represents the return of the birds in spring and a limited number of these covers will be sent to some of the libraries to be used as posters. Several of the poems and prose selections have been illustrated with pen and ink drawings, and a few cuts of school buildings, schoolroom interiors, high school libraries and district school bookcases have been inserted.

These cuts represent conditions that exist today in some of the most progressive districts, villages and cities of Wisconsin, and it is hoped that an effort will be made in all parts of the state to improve existing conditions so that whoever prepares the Arbor and Bird Day Annual for 1903 may have available cuts which will show the results of the efforts of teachers, pupils and parents during the past year to improve existing conditions.

## MORE FRICTION ON ALASKA LINE

State Department, Informed That Russian Monument Had Been Destroyed, Will Investigate.

Washington, D. C., April 3.—Sensational developments have arisen in the Alaskan boundary question which may cause dangerous friction between the United States and Great Britain, and the boundary dispute may be settled in favor of the United States almost immediately.

The Alaskan boundary question has been troublesome for years and prolific of much friction between the two English-speaking nations. The present situation grows out of the receipt by the state department of reports that a monument erected by Russia to mark the boundary between Alaska, which, until 1867, was a Russian possession, and the adjacent British territory, has been arbitrarily removed by a Canadian official surveying expedition.

## BREWERS IN BOSTON OUT ON A STRIKE

## PRESIDENT WILL RETIRE MILES

Washington, D. C., April 3.—It is learned this morning from sources of unquestioned authority that the president has decided to definitely retire General Miles. The date of retirement is the only question not determined. The president is inclined to postpone action until after the adjournment of congress although he may decide to issue an order within the next few days.

## ROSE WILL RUN FOR GOVERNOR

His Victory in Milwaukee May Make Him Democratic Nominee.

## ANSON VERY ANGRY

He Accuses La Follette Republicans of Throwing Him at the Polls.

## ANALYZING THE VOTE

Milwaukee, Wis., April 3.—David S. Rose, who was on Tuesday the third time elected mayor of Milwaukee, will be the democratic nominee for the governorship if the program that he has long had mapped out does not miscarry. He said several months ago that with another endorsement of the people of Milwaukee there would be nothing except the healing of the breach in the republican ranks in his way.

Business of Politics. Rose is running for office every day in the year; he is one of the strenuous, whirlwind kind of men, strong of limb, ambitious, good looking, and popular with his neighbors, and never loses sight of the game of politics he is playing.

He took it up as his life work six years ago under adverse circumstances, made one or two failures, but fought his way practically alone and single-handed into the mayor's office the first time. Then he began the career of display that has attracted to him a wonderful following which has enabled him with a combination of "peculiar circumstances," to be twice again chosen. No opportunity is ever lost by Rose to keep before the public.

Anson Accuses LaFollette. Major C. H. Anson, the defeated republican candidate for mayor, is inconsolable and takes his defeat to heart. He attributes the result to the opposition of a faction of the republican party which joined forces with the friends of the governor to defeat a man who was the favorite of Pfister and his stalwart league in this county.

Anson denounces the La Follette organ for its failure to support him as the regular nominee of the party and for selling him out for the purpose of keeping an appointee of the governor in office. "I believe," said Major Anson today, "that the movement which resulted in my defeat was directed by Governor LaFollette himself from Madison, and he will hear from us. My defeat is due entirely to the Rose-Tarrant combination. Votes were traded by half-breeds with the democrats."

Analyzing the Vote. The vote cast Thursday in this city was 58,135, or within 135 of the vote cast in the presidential election of 1900, which indicates the work that was done and the interest taken in the election.

The most significant feature is the large social democratic vote which was polled. This vote reached 8,441 on the head of the city ticket, an increase of nearly 6,000 over two years ago and 4,000 more than the vote cast by the party at the presidential election in 1900.

The greater part of this increase came from Republican wards. It is safe to say that of the 7,558 plurality received by Mayor Rose, 4,000 came through the drafts made by the social democrats on the republican ranks.

Mayor Rose Explains. Mayor Rose said today concerning his re-election: "It is a triumph of progress. It sounds the knell of 'knockism.' It shows that the people are patriotic before they are partisan. Platforms must be affirmative, aggressive and progressive. Mere negatives will not do. The business men, manufacturers and laborers of Milwaukee were united in a desire to accomplish a greater good for our city."

## BOSTON'S HONOR TO A FAVORITE SON

Remarkable Demonstration in the Hub City as a Tribute to Edward Everett Hale.

Boston, Mass., April 3.—A remarkable demonstration in honor of a living man's birthday is that in Symphony Hall, Boston, today, where thousands of friends and admirers of Edward Everett Hale, clergyman, author, philanthropist, and reformer, are gathering to celebrate his eightieth anniversary. Nor will the home town of "the professor of Americanism" be alone in doing honors, for similar celebrations have been arranged in a number of New England towns.

## "ERMINIE" WILL BE A RARE TREAT

Opera Will Be Produced by Home Talent at Myers Grand Monday and Tuesday Nights.

A rare treat is in store for those who love a good opera and who attend the rendition of "Erminie" at the Myers Grand on next Monday and Tuesday evenings. The opera will be produced by home talent. The same opera was given here about six years ago and made a decided hit. The coming production will be superior in many ways, and has many new songs, dances and other up-to-date features.

Mrs. S. T. Learned, one of the popular singers in this city, will sing the title role, and she will also sing several popular opera songs, especially that of the "Lullaby," made famous by Lillian Russell in the original New York production.

Humorous songs, dances and up-to-date funnys will be introduced and those worthy of special mention are: "Willie O' the Yacht," by Miss Joe Treat, with full company in chorus; also "Minnehaha" one of the latest successes in Chicago, sung by chorus of beautiful Janesville girls, which is sure to capture the house.

The chorus is complete and the singers have mastered their parts. The costumes are correct and elaborate, so that those attending the play can look forward to a rare treat.

The play is given for the benefit of the Frances Murphy League under the direction of Perry M. Webster. The play is a good one, given by a capable company and the house should be crowded, as it is for a worthy cause. Following is the program:

Second Annual Gathering Will be Held in Milwaukee, April 15-17. The officers and home workers will endeavor to make this convention the best held since the organization of the association. Every Spiritualist should endeavor to attend and have a voice in the legislation enacted for the good of the cause in the future and the success of this session.

### Makes a Correction.

Editor of Gazette: In perusing the contents of your paper, dated March 26, 1902, I noticed the case of the State of Wisconsin vs. Layton Vail is misrepresented, as I had the case adjourned until the 6th day of December, next, to then stand trial, to see if I did anything so desperate as to warrant the court to bind me over.

## CHANGE OF LIFE.

Some Sensible Advice to Women by Mrs. E. Sailer.

"DEAR MRS. PINKHAM:—When I passed through what is known as 'change of life,' I had two years' suffering, sudden heat, and as quick chills would pass over me; my appetite was variable and I never could tell for

MRS. E. SAILER,  
President German Relief Association,  
Los Angeles, Cal.

a day at a time how I would feel the next day. Five bottles of Lydia E. Pinkham's Vegetable Compound changed all that, my days became days of health, and I have enjoyed every day since—now six years.

"We have used considerable of your Vegetable Compound in our charitable work, as we find that to restore a poor mother to health so she can support herself and those dependent upon her, if such there be, is truer charity than to give other aid. You have my hearty endorsement, for you have proven yourself a true friend to suffering women."—Mrs. E. Sailer, 7561 1/2 Hill St., Los Angeles, Cal.—\$5.00 per bottle if above testimonial is not genuine.

No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, for no other has had such great experience—her address is Lynn, Mass., and her advice free—if you are sick write her—you are foolish if you don't.

As the public like facts, not fiction, please correct mistakes and oblige. Very Truly Yours,  
DAVID L. VAIL, Orfordville, Wis.

### An April Fool.

When Uncle Robert got his mail that first of April morning (Now absent minded people all) Just read and take a warning.) Among the business bills and slips, And cards of invitation, And friendly notes, he found at last, One queer communication. It took but little time to read— A moment but to con it.  
The two words "April Fool" were all That could be found upon it.  
Then Uncle Robert laughed and said: "I've heard of funny blunders In superscriptions and address, And many puzzling wonders, And seen epistles left unsigned. This goes them all one better; For here's a man who signed his name And forgot to write the letter."  
—Abby F. C. Bates, in St. Nicholas.

Marguerita Sylva in "Miss Bob White."

Willard Spenser composed the "The Little Tycoon," one of the most successful operas yet produced in this country. With the fortune made by his first venture Mr. Spenser produced his second "The Princess Bonnie," and then he fully realized the meaning of the adage that heads this article. When he wrote a third opera, Messrs. Nixon and Zimmerman (who were among the few managers whom Mr. Spenser failed to see with his first manuscript) secured it and their instantaneous success with "Miss Bob White" is already history. Written in Spenser's best vein, they immediately saw the possibilities and now it is one of the reigning successes. It will be presented in this city at the Myers Grand tomorrow night and the

## TWO HAPPY COUPLE TIED IN WEDLOCK

Robert C. Knoff and Miss Anna M. Schultz, and Rev. Adolph Voight and Miss Elizabeth Ehrlinger.

Last evening Rev. Robert C. Dennison spoke the words which united for life Miss Anna M. Schultz, of Blooming Grove and Robert E. Knoff of Madison. The wedding was private the couple being unattended and only relatives of the happy couple were present. The groom is a well-known young man, the son of Mr. and Mrs. Herman A. Knoff of this city. He is a graduate of the Janesville High school of the class of '96 and of the university of Wisconsin of the class of 1901. Since his graduation he has engaged in newspaper work, at the present time being city editor of the Madison Democrat. ### A Mixed Recipe.

A fashionable young lady visited a cooking school the other afternoon where her attention was equally divided between a new dress worn by an acquaintance and the directions for making a cake. Upon returning home she undertook to write down the recipe for making the cake for her mother, and the old lady was paralyzed when she read the following:

"Take two pounds of flour, three rows of plaiting down the front, the whites of two eggs cut bias, a pint of milk ruffled round the neck, half pound currants, with seven yards of band trimming, grated lemon peel with Spanish lace fish: stir well, and add a semi-fitting palette with visited sleeves; butter the pan with Brazilian topaz necklace, and garnish with icing and passementerie. Bake in a moderately hot oven until the skirt is tucked from the waist down on either side, and finish with large satin rosettes."  
Her mother said she would not eat such a cake and she thought these new fangled ideas in cooking ought to be frowned down.—Michigan Badger.

### Modified Eggs

The "drummer," whose route took aim to the lumber districts of Maine went down to breakfast table at the hotel one morning to find that the chief dish was to be scrambled eggs.

The rosy-cheeked waitress was gone a long time after his order and finally appeared with cheeks rosier than ever.  
"Please sir," she said, hesitatingly, "the eggs are not quite fresh enough to scramble, but will you have em boiled?"—New York Mail and Express.

## Dyspepsia

Is difficult digestion, due to a weakened condition of the stomach and its inability to properly churn the food; or to unhealthy condition of the gastric juice, too much or too little acid, too much or too little pepsin.

Hood's Sarsaparilla relieves all the distressing symptoms of dyspepsia because it promotes the muscular action of the stomach and intestines, aids nature in the manufacture of her own digestive secretions, which are far better than any artificial pepsin, unlocks the bowels, stimulates the kidneys and tones up their mucous membranes. So prompt is its effect in many cases that it seems to have almost a magic touch.

Begin to take it NOW.

Suffered Everything—"I was troubled with dyspepsia, suffered everything but death, could not eat without terrible distress. Since taking Hood's Sarsaparilla I eat heartily and I am well." Mrs. Emma Murray, Danbury, Conn.

## MAGAZINES.

## Old-Time Boiler-Making.

It is not necessary to look back more than a few years to recall the time when a steam boiler was made of almost "any old stuff," riveted up somehow, anyhow, so long as the rivets were spaced with apparent regularity and had good big heads on them. The chipping and chanking made the thin sheets look about an eighth of an inch thicker than they actually were, and the fittings and mountings of cast iron were so lavish in material that the buyer felt he was getting a good deal for his money. No one could see inside on the seams, even if it had occurred to them to look there, and discover the mischief wrought by drift-plus urged by heavy flogging hammers upon recalcitrant rivet-heads that simply would not let the rivets in, or find the liners and "dutchmen" that filled gaps where the plates would not come together; but all these defects existed in cheap boilers, made to sell.

There were good boilers made in old times, he it understood; not all of them were of the class described above, but many were, chiefly those made for a small price. If they were reasonably steam-and-water-tight when done, that was all that was expected of them.—Egbert P. Watson, in The Engineering Magazine for April.

## Timely Pictures.

Doubleday, Page & Co., are issuing proofs of the superb illustrations from both The World's Work and Country Life in America for April. It is their aim to publish separately, each month pictures characteristic of the magazines. Those from the latter follow the changes of the seasons in the World's Work pictures deal more with current events and include the large portraits. The first issue of March pictures is said to have been very popular with libraries and schools and those who care for reproductions of beautiful photographs at a low price.

## A Dangerous Experiment.

Hunting rattlesnakes with a camera in the San Bernardino mountains of California is the subject of a remarkable contribution by W. H. Baileys to Country Life in America for April. The "rattlers" have an appearance of being horribly near. In fact the photographer was bitten in one encounter, and, another time, the snake broke its fangs striking the camera. A picture of an old reptile ready for action seems as remarkable in its way, as the leaping cougar in A. G. Wallihan's "Camera Shots at Big Game."

## TOWN OF JANEVILLE

The republicans elected every man on their ticket with the exception of treasurer.

W. J. Kennedy was re-elected as treasurer, not alone by the democrats as he was given the largest majority ever received by anyone running for that office, on that ticket.

Richard Winston died at his home on the Mineral Point road on Monday morning. Funeral services were held Wednesday at 10:30 a. m., conducted by the Rev. James Churn of the city. The interment was at Evansville, the former home of the deceased.

Mrs. A. H. Burns returned from Chicago Sunday night. She reports her husband as doing nicely, but it will be some time before he can be brought home.

Miss Eloise Burns, the youngest daughter of Mr. and Mrs. A. H. Burns is sick with pneumonia at the home of her aunt, Mrs. Lizzie Chase in the city.

Fred Birkendall is again in the employ of Mrs. Sarah Little.

Allan Welch attended a party on Monday evening, given by Mr. and Mrs. W. H. Ashcraft Jr., for Roy Swan.

School commenced in District No. 5, Monday, April 7, with Miss Ethel Whitney as teacher.

## UP-TO-DATE BUSINESS MAXIMS.

Some Sapiient Sayings Which Contain Valuable Suggestions.

George Ade contributes to the Century's "Year of American Humor" a "Modern Fable of the old Fox and the Young Fox." Here is some of the former's sage advice:

"Get acquainted with the Heads of Departments and permit the Subordinates to become acquainted with you.

"Always be easily Familiar with those who are turned Great in the Public Prints. They are so accustomed to Deference and Humanity, it is a positive relief to meet a fainty Equal.

"The first Sign of Extravagance is to buy trousers that one doth not need. Every young Man on a Salary should always beware of the Trouser's Habit.

"Do not give Alms promiscuously. Select the Unworthy Poor and make them apply. To give to the Deserving is a Duty but to help the Improvident Drinking Class is clear Generosity, so that the Donor has a Right to be warned by a selfish Pride and count on a most flattering Obituary.

Never try to get into society, so called. Those who try seldom get in, and if they do edge through the portals they always feel Clammy and Unworthy when under the Scrutiny of the Elect. Sit outside and appear indifferent, and after awhile they may send for you. If not, it will be Money in your Pocket.

"Never write when you can Telegraph, and in Writing always use more than Ten Words. This is the Short Cut to being regarded as a Napoleon. The Extra Words cost only a few Cents, but they make a profound Impression on the Recipient, and give the Sender a Standing which could not be obtained by an expenditure of Four Dollars for a Birthday Gift. A man never feels more Important than when he receives a telegram containing more than Ten Words."

SPOONER'S GREAT OPPORTUNITY.

If Spooner is in favor of LaFollette's re-election that fact should be known, and it would not hurt the senator's chances one iota, it would improve them. Why, then, this reticence on the part of the senator? Does it not justify the suspicion, nay, the assertion, that the senator and those who are nearest to him are not in favor of LaFollette's re-election, but are opposed to it? And especially when we recall the attitude, the ambitions, and the public speeches of some of his nearest and most active lieutenants?—Milwaukee Free Press.

The Milwaukee Organ may be color blind, if not it should have discovered long since that LaFollette and Spooner are not among the possibilities. If the paper stands as close to the governor as it is entitled to, it has made another discovery before this time, and that is, that the governor has no ambition to trot in the same class with the senator. He has not been in training for that purpose, and while he is very secretive, his most intimate friends, outside of Dr. Wilder, of the Madison Journal, have never had the audacity to claim that he would favor such a combination.

Governor LaFollette is an avowed candidate to succeed himself. Attached to his campaign, and closely allied with his ambitions, is a little corte of men who are antagonistic to senator Spooner. They do not include the rank and file of the governor's supporters, but they represent in wealth and political influence, the dominant element of that faction.

Senator Spooner, while not an avowed candidate for re-election, is nevertheless the people's candidate, and he will not be permitted to retire from the United States Senate. The campaign, so far as the republican party is concerned, is a Spooner campaign. The first question asked in every assembly district, will be, "are you in favor of the election of John C. Spooner to succeed himself?" It will not be a question of Spooner and LaFollette, for that is not debatable, under present conditions. Senator Spooner stands for conservative republicanism, and his record is an open book. Governor LaFollette makes no claims along these lines, and his record is also open for inspection. It will not be Spooner and LaFollette, but it will be Spooner and Whitehead, and the republicans of the state may as well understand the situation and govern themselves accordingly.

There are many good men, who admire the governor, and who would be pleased to support him for a second term, but these men do not propose to sacrifice Senator Spooner. They recognize the fact that Senator Whitehead possesses all the elements required for safe leadership and that his election means a good governor. Senator Spooner will be retained, because the demand for him is practically universal, but with his retention will come a change of state administration, and the change will be for the best good of the commonwealth.

POLITICS IN MILWAUKEE.

The result of the election in Milwaukee is not significant, so far as state politics is concerned, and is destitute of influence on the state campaign. The Milwaukee organ is so full of self congratulation, that it is very evident where its sympathy and support has been from the start, and the Journal, in its piratical course, finds another opportunity for shouting.

Milwaukee under normal conditions is a democratic city. The Social Labor vote this year was heavy, and the disaffection in the ranks of the republican party resulted in a three-cornered fight. While professing to support Anson, the vote shows that he was knifed in almost every precinct, by men who profess to be republicans.

The conservative element of the party is furnished an opportunity to measure the strength of the LaFollette faction, which in this instance held the balance of power, and the advantage was used for democratic support. It is simply carrying out the rule or ruin policy for which the faction is noted. The test of strength between the two factions, came in the nomination of Anson, and the lines will be more closely drawn on state matters. The result in Milwaukee, will simply tend to widen the breach. Had the LaFollette men been willing to unite on a candidate, there would have been no contest, on Judge Tarrant, and a semblance of harmony would have been established. The breach has simply widened, and the state convention will be necessary to determine whether republicanism of LaFolletteism shall control the state.

FORTUNE IN ADVERTISING.

Sixteen years ago R. H. Williams started in the grocery business in Kansas City with a cash capital of \$225. All he possessed in the world. A few weeks ago he sold out and retired

with a fortune estimated at from \$200,000 to \$300,000.

Recently Mr. Williams talked entertainingly on the subject of his success and the result his advertisements achieved.

"I remember very well," said Mr. Williams, "that the first day's sales amounted to just \$8. For the first six months I did some credit business, and then I realized that these customers would soon have my stock and I would have the accounts. I conceived the idea of selling for cash and advertising. I went to the Kansas City Star to inquire the cost of advertising and was surprised to find that it would cost me one day's receipts to pay for a small advertisement for one day. However, I was so positive that advertising was the only way to success that I made the necessary arrangements. It took all the money I could spare from my business, but it was only a short time until my business began to grow. I soon afterward moved to 802 Independence Ave. just across the street from my former store. I was there about three years and because larger quarters were needed I moved to the south west corner of Independence Avenue and Holmes streets. It was only a short time until I secured two additional rooms across the street on Independence Avenue, and there I remained until 1893, when the move was made to the Nelson building.

"Here I opened my store on Sept. 23, 1893. Of course I had advertised the opening liberally in the Star. I will never forget that day. There was such a crowd of customers that the clerks could not wait on one in ten. From that day on business has been on a large scale. I have employed from fifty to seventy-five clerks at all times, varying with the seasons of the year. Goods are shipped to all parts of the United States. I have customers on the Pacific coast, the Atlantic and from British Columbia to the Gulf of Mexico. For the out of town trade my ad goes to the Weekly Star. From the beginning of the little store on Independence Avenue until today my business has grown each year from 10 to 500 per cent."—Profitable Advertising.

Congressman Babcock possesses the good sense to yield a point gracefully when the occasion demands. He has changed his position on the tariff question, having discovered that the steel manufacturers are heavy importers of raw material. The congressman possesses good common sense, and is not destitute of political foresight.

The experience of Mr. Williams, of Kansas City, who made a fortune in a few years by judicious advertising, may be duplicated by every merchant in the country, if the same intelligence and persistency is put into the investment. Advertising faithfully followed, never fails in results.

Tuesday was republican day throughout the state. The democratic party is badly demoralized, and would fail to be in evidence but for the opportunity to fuse with disgruntled republicans. The alliance in Milwaukee shows which way the wind blows.

Chicago rejoices in the victory of the Voters' League, an organization which has to do with good government. Twenty-eight out of 36 League candidates were elected, and a reform administration is in sight. Mayor Harrison will find his power restricted.

The defeat of Professor Storm Bull of Madison, will leave that gentleman with all his time to devote to the University. The state employees should be content to do the work for which they are paid, game wardens and all inspectors of course excepted.

The new Chicago council will favor city ownership of public utilities. It will be an expensive experiment for the city if the scheme is adopted. There may be some corruption in private ownership, but it isn't a circumstance as compared with municipal corruption controlled by politics.

The famous ice tax law has met its Waterloo at the hands of the Supreme court. The weather just at present is a little off on ice, but the season is all right for cultivating common sense. The action of the supreme court will be heartily approved.

The election of Mr. Grove, as Mayor of Madison, is of more significance than the defeat of Anson in Milwaukee. It divides the storm center between Rock and Dane, and will call for a fresh supply of wardens and inspectors.

PRESS COMMENT.

A special from Neenah says that Thomas Higgins, of that city, will seek the Republican nomination for congress in that district. Mr. Higgins is a strong LaFollette man and is being urged by that faction of the republican party to make a fight for the nomination. With John Stranke, of Neenah, and W. H. Hatton, of New London in the field, it looks now as though Mr. Davidson had an interesting fight on his hands.—Chilton Times.

Racine Journal: The efforts of well meaning people to secure a compromise by re-electing both the governor and the senator, is not taking well. There is something wrong about the political vaccine point.

The Ice Law Melted.

Among the extraordinary performances of the last legislature on the subject of taxation was the enactment of measures of taxing dogs and ice. This in the face of the fact that the state tax commission, after strenuous and protracted labor, had offered several important bills, covering taxation of public-service corporations, etc., etc.

The legislature ignored the work of the tax commission. Commission bills were kept smothered in the senate and were killed in the assembly. Then they were quietly and deeply interred.

But the legislature passed the dog bill.

And the ice bill.

Dogs and ice! They were willing to tax anything—lake-water, well-water, tobacco-smoke, hot air, ice, dogs, tom cats or blue jays—providing they did not have to take hold of and settle vital questions.

Gov. LaFollette vetoed the dog bill and made a bid for the farmer sentiment, but signed the ice bill. If he hadn't signed the ice bill he would have been "afraid of the big Chicago packing corporations," and after he had signed it, it was a "dam fool bill." And so the supreme court says today. See Madison dispatch else, where in this issue.—Eau Claire Telegram.

## SWELL EVENT AT ASSEMBLY HALL

BY MR. AND MRS. BLODGETT AND MR. AND MRS. D. W. HOLMES.

Hall Had Been Converted Into a Veritable Fairy Bower—Splendid Costumes Worn by Handsome Ladies—About Three Hundred Responded to Invitations, and Had a Happy Time

Assembly hall last evening was the scene of the swiftest function that has ever graced the local society. It was the occasion of the reception and dance given by Mr. and Mrs. F. H. Blodgett and Mr. and Mrs. D. W. Holmes. Everything was in keeping with the post-Lenten season and gaiety abounded everywhere.

The hall was never prettier than last evening and in the efficient hands of Decorator Fleishman, of Chicago, lay the credit for transforming the cold, bare walls and large hall into a veritable fairy bower. Large ropes of vines with here and there a red or white rose peeping out from behind its green covering, were strung from the corners and sides of the hall to the large chandelier in the center of the hall. They merged here into a sort of basket or canopy which almost hid by the chandelier.

On the walls were many mirrors, which with their green trimmings of vines made a very pleasing effect with the movements of the dancers. In the center of the West side a portico of climbing vines, sprinkled with red and white roses, very materially added to the beauty of the room. Everywhere in the large hall there was the prevailing color of spring. Even the lights had a soft and restful radiance, their usual harsh effect being overcome by the use of a pink shade which cast a pleasant light over the whole hall.

The reception corner was in the northwest corner of the hall and it was here that the hosts and hostesses almost hidden in their floral bower, welcomed their bidden friends.

The balcony held the musicians, Prof. John Smith's orchestra and the Imperial Band. Both organizations were at their best and the music of the evening was an incentive to keep up the festivities until early morning. The balcony was also reserved for the men and cigars were served after each dance to those who wanted to take a short rest.

During the evening refreshments of a light order were served in the ante-room at the northeast corner of the hall. The room was decorated very handsomely and the tables were arranged in the most artistic manner. A beautiful candelabra graced the center of each table and their soft light was diffused throughout the whole room. Mrs. Louise Bowerman was the caterer and had as assistants the well-trained waitresses of the Grand Hotel. The guests were also given frappe at booths in the hall.

Distinctly in keeping with the beautiful effect of the hall were the costumes worn by the ladies present. It is very seldom that local society sees so many beautiful and costly dresses at a home party. Beautiful and variegated was the sight as the dancers moved about the room in response to the dreamy waltz or the crashing two step.

About three hundred responded to the invitations issued and all of these enjoyed an evening that will take a long time to forget. The hosts and hostesses were given many congratulations upon their distinctly brilliant success as entertainers.

The floor was in charge of a committee consisting of W. A. Jackson, Albert Schaller and William W. Watt. Among the out-of-town guests were:

Messrs. and Mesdames—L. W. Crow, Chicago; D. W. Worthington, Beloit; Mesdames—Charles Hemming, Chicago; William Shattuck, Chicago; T. C. Renley, Beloit; Misses—Ella Lane, Evanston; Edna Williams, New York City; Katherine Bradley, Beloit; Edna Cannon, Portland, Oregon; Messrs.—George Springer, Evanston; Robert Menzies, Beloit; F. W. Schenck, London; E. W. Pickard, Chicago; W. H. Hutton, Madison; Albert Holmes, Fort Atkinson; Frank Springer, Evanston; R. J. Pickard, Chicago; Ralph Jackson, Madison; Alvin Emerson, Rockford; H. Henry, Rockford; Alfred Hoffmaster, Chicago.

## CITY WILL FURNISH STONE FOR MACADAM

Officials Make an Agreement with the Beloit, Delavan Lake and Janesville Road.

H. H. Clough connected with the Rockford-Janesville Interurban electric railway, came to Janesville on Tuesday and yesterday. Alderman McLean with Aldermen Fifield and Glicky of the committee on highways in company with Mr. Clough visited the city quarries and the route of the interurban railway in this city and today completed arrangements whereby the city will furnish stone for the interurban to macadamize its line from the Jackson street bridge to Milwaukee street, on Jackson, Oak and South Franklin streets.

City Engineer C. V. Kerch has established a permanent grade on the above named streets and the railway company will macadamize that part of the street that their franchise demands. The work will be done in a workmanlike manner and as good as any macadam in the city. The work will be done under the direction of the Hayes Bros., which fact alone insures a good job.

The price paid to the city is slightly above that paid by contractors in the city for stone for the streets, owing to the time of the year the stone crusher having to be started before the regular street work begins. The workmen will begin work in the quarry soon to prepare stone for the interurban line.

Persons residing along the line in this city need have no fear, as the streets will be left in a better condition than they have ever been before. This is guaranteed by Mr. Clough, the Hayes Bros., and the committee on highways. It is a good thing for the city that the work on the new line is to be

so thoroughly done. This leaves the line from Jackson street bridge to Milwaukee street on a permanent grade and macadamized between the rails as thoroughly and permanently as any street in the city.

## FIVE YOUNG BOYS MADE AN EXAMPLE

Detective of the Milwaukee Road Determined to Stop Boys from Running Over Yards.

This morning in the municipal court the case of the State vs. Thos. Dee et al was called. The case was caused by the numerous petty depredations of boys and others around the yards and depots of the railroad companies. For some years the railroad officials have been bothered by the continued mischief around the cars, which have been left upon the side tracks. Caboose, coaches and freight cars have been frequently broken open and small thievery taken place. Recently the Milwaukee road sent H. F. Romaine, a private detective, out here to see if he could not stop the nuisance. He was successful in apprehending five young men who had broken into a caboose and simply committed a nuisance. These five were brought into court this morning and were punished as follows:

Thos. Foley, \$2.44 or five days; Stuart McConnell, \$4.44 or eight days; Ed. Nolan, \$2.44 or five days; Vernon Trautweller, \$3.44 or six days; and Thomas Dee, \$4.44 or eight days.

Mr. Romaine says that the company is going to make an example of every one caught in this manner and that the fines were made light in this case simply because the boys promised to behave in the future. In case they do not the full penalty of the law will be inflicted.

The situation regarding the carpenters' strike remains unchanged, as the contractors are not willing to agree to any minimum wage, and the carpenters are not disposed to begin work without an agreement as to the minimum wage.

The contractors state that 75 per cent. of the carpenters are receiving \$2.25 per day and 15 per cent. are receiving \$2.50 per day and above, and the other 10 per cent below \$2.25 per day.

The contractors state that they should have the right to hire one man out of every ten for rough work and pay this one man what he earns. They will not agree to any minimum wage.

The carpenters claim that the average wage paid in Janesville is lower than in any other city in southern Wisconsin, that in nearly every city in the state the contractors have agreed to a minimum wage and that the contractors in the other crafts in the city have signed a minimum wage scale.

The carpenters further state that, owing to the fact that they are willing to arbitrate and leave the matter entirely to those outside their union to decide, the present position of the contractors is very weak when they will not arbitrate.

CALL FOR FICTION AT PUBLIC LIBRARY

The amount of fiction read by patrons of the public library amounts to 20 per cent. Since the introduction of the renting collection whereby an extra supply of the newest fiction is placed at the disposal of borrowers, the amount of novels read, has increased materially. About four years ago an effort was made to lower the per cent of fiction by giving two books on a card; one of which could be a novel and the other, one of another classification, or any of the magazines. The open shelf system has been of great value in reducing the fiction in other libraries as well as ours, access to the shelves acting as an incentive toward investigation.

## FOURTH WARD CASE MAY GET INTO COURT

Contest Over the Vote for Alderman Will Be Before the City Council Tonight.

The doubt still remains over the ultimate outcome of the vote for alderman in the Fourth Ward. It remains for the council tonight to canvass the vote and then the republicans can contest the vote by taking it into court. There have been no ballots returned to the city clerk because of their illegality so it is probable that the council will be only able to let the vote stand as it does now with a majority of one for the democratic candidate.

As the law is now, the council cannot go behind the poll books and if no illegal ballots are returned to the city clerk before the canvass by the council the vote must stand as reported by the inspectors. It is possible, however, if there is a question of fraud or illegality, that the vote may be contested and carried to the courts.

At present the poll books show one man who voted in the first precinct of this ward as living in the first Ward. Of course the inspectors should have seen to it that this did not happen, but as it did, it gives plenty of grounds for a contest of the vote. There is a question, too, of the two alleged votes in the second precinct for outside candidates which do not show on the official returns.

Upon these grounds the republican candidate has plenty of cause for complaint and if he has the support of the voters of the republican party in the ward, he will contest the vote provided the canvass shows the same result as the official returns.

# KILL PRISONERS IN GOLD BLOOD

Two Officers of the Bushveldt  
Carbineers Executed in  
South Africa.

## MURDER BOERS AND NATIVES

Ten Unarmed Prisoners Are Slain for  
Their Treasure and German Missionary,  
with Knowledge of the Affair, Is  
Shot to Death by Lieutenant Hancock.

London, April 3.—The Morning Leader gives credence to a sensational story on the authority of a member of the Bushveldt Carbineers, whose name it refuses to divulge, according to which Lieutenant Hancock, one of the Australian officers recently executed for murder in South Africa, was guilty of a number of wanton murders of natives, besides ten Boers who had surrendered, and a German missionary. His fellow officers, Lieutenant Morant and an unnamed captain, were implicated in the crimes.

According to the Leader's informant the guilty officers, while commanding a detachment of carbineers in the wild, fever-stricken bush country two hundred miles north of Pietersburg, committed many murders. Lieutenant Hancock was the instigator of most of the outrages, but the anonymous captain is reported as shooting the natives for sport. When the officers had a spite against any one in the carbineers' ranks he would send the man to scout on the right flank, and he rarely returned.

The other men became suspicious and kept an eye on their officers. When the latter learned that ten Boers were traveling to Pietersburg to surrender, taking \$100,000 with them, Lieutenant Hancock caused them to be intercepted and court-martialed them, although they were not armed when captured. He ordered them to be shot. Sergeant Morrison was instructed to execute them, but he demurred, and ultimately refused. Another company carried out the order. Afterward the Boers' baggage was ransacked and the officers were disgusted upon finding that the \$100,000 was in Transvaal paper money and worthless.

Lieutenant Hancock, ascertaining that a German missionary in the neighborhood knew the facts in connection with the killing of the Boers, went to the mission and shot him dead. He also tried to shoot the missionary's black servant, but the latter escaped after being wounded. Through him the news reached the German consul, who appealed to Gen. Kitchener for an inquiry.

Van Buren, a trooper, subsequently overheard Lieutenant Hancock and the captain discussing the advisability of having Sergeants Morrison and Grey shot, presumably for refusing to execute the Boers. Van Buren warned the sergeants, who fled to Pietersburg. Lieutenant Hancock sent a party in pursuit of them, but when the pursuers overtook the fugitives they joined them and all went to Pietersburg together. They reported what was happening to Major Linham, the commander of the carbineers and rejected his advice that they return. They asked for a court-martial, but this was never held.

Subsequently Lieutenant Hancock, suspecting that Van Buren had warned Morrison and Grey, had him shot. It is explained that men belonging to irregular corps like the Bushveldt Carbineers, only join for six months. As the time of the troopers expired they returned to Pretoria, where they were examined by Gen. Kitchener, who ordered the offending officers arrested. A quantity of evidence was taken at their trial, which, it was clearly seen, was most painful to Gen. Kitchener.

London, April 3.—In a dispatch from Pretoria Lord Kitchener announces that the Second Dragoon Guards fought a sharp rear-guard action near Boschman's Kop the evening of March 31.

Four officers are known to have been wounded. No further details of the casualties have been received.

**'Trouble Over' Hayward Election.**

Ashland, Wis., April 3.—Bloodshed may be the result of the election in Hayward. A bitter and strained condition of affairs obtains there and at any moment is likely to cause trouble. When public endorsement is made by a representative citizen of Janesville the proof is positive. You must believe it. Read this testimony. Every backache suffered, every man, woman or child with any kidney trouble will find profit in the reading.

John M. Stetson, of Hotel Myers day clerk, says: "A physician pronounced my trouble kidney complaint. If the severe pain across the small of my back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks, some times violent, sometimes a dull grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I received Doan's Kidney Pills at the People's Drug Co's drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed any recurrence of my old trouble."

**New Post for Dr. Hall.**

Springfield, Ill., April 3.—Dr. Frank Hall, until recently superintendent of the state asylum for the blind at Jacksonville, will be elected superintendent of the Illinois Farmers' Institute, to give his entire time to the educational features of the institute.

The book-keeper's occupation renders him specially liable to stomach trouble. The hasty breakfast, the "quick lunch," the long hours spent in stooping over journal and ledger, with lack of exercise, all tend to the derangement of the stomach.

When the stomach is in a healthy condition the feeling after a meal is one of satisfaction and comfort. Whenever there is discomfort after eating it is a sign of stomach derangement or disease.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition perfectly and permanently. The cures effected by this medicine are almost countless.

"I have taken one bottle of Dr. Pierce's Golden Medical Discovery for indigestion and liver complaint," writes Mr. C. M. Wilson, of Yankin College, Davidson Co., N. C. "I have had no bad spells since I commenced taking your medicine. In fact have not felt like the same man. Before I took the 'Golden Medical Discovery' I could not eat anything without awful distress, but now I can eat anything I wish without having unpleasant feelings."

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

Dr. Pierce's Pleasant Pellets cleanse the bowels and regulate the liver. They produce permanent benefit and do not react on the system.

## DEPENDS A LOT ON THE ATTORNEY

Average Cost of a Divorce Suit is  
Less Than Fifty Dollars—Some  
Facts and Figures.

"How much does it cost to secure a divorce?" Judging from the dockets of the circuit court for the last few terms this is a question which is asked frequently of the members of the bar in Winnebago county. It was at last fall's term that all previous divorce records for the county were broken when over a dozen unhappy couples were legally freed from each other within two days and the total number of cases ran into the scores. The last term saw about a score of these cases on the docket and about a dozen entries have been filed to date for an airing of marital woes at the April term.

Of course a good deal depends on the lawyer. That's the first consideration. Some lawyers charge a goodly sum, others take cases at a low figure, and still others, it may be said, are declined to take them at all. The amount of the lawyer's fee may run all the way from \$10 to \$250. The latter sum was paid to one lawyer in this city not long ago for procuring a decree. It would be safe to place the average demand of the lawyer at \$25 in the ordinary default case. In a case where the defendants default the work is easy and the cost can be figured as follows:

Docketing of bill.....	\$ 5.00
Serving of summons.....	.75
Taking of testimony (reporter).....	2.00
Attorney's fee.....	25.00

Total.....\$32.75  
If defendant is a non-resident, service must be obtained by publication in the daily prints, which costs \$9 more, making the total cost about \$41.

There are generally one or two witnesses besides the complainant, but they are as a rule close friends of the aggrieved party and witness fees are seldom demanded.

When a contest is made, with a reluctant jury, a good deal of testimony on both sides, and several days' work on the part of the attorneys, the costs run up as they do in any similar court proceeding and a neat sum will be expended before the decree is obtained. In a few cases, however, in the local court, there is any defense.

On the subject of divorce, the statement of a certain prominent Rockford attorney is interesting. "I don't take many of them," he said. "A great many seem to be necessary. About half the women who ask to get a divorce for them, have really no reasonable grounds and this applies to a much larger percentage of the men who have indicated a desire to become a client of mine in this work. The divorce docket grows because a divorce is not the subject of as much comment as it was formerly. Not so long ago, in a rural community, at least, the fact that a woman had secured a 'bill from her husband,' or was about to do so, was the subject of much gossip, and she shrank from it. But now the divorce mill grinds steadily and the world in its haste thinks little of it."—Rockford Register-Gazette.

# Danderine

## GREW THIS HAIR.

THREE WELL KNOWN YOUNG LADIES WHO ARE RECEIVING WONDERFUL RESULTS FROM THE USE OF DANDERINE.

KNOWLTON DANDERINE CO., Chicago, Ill.

Dear Sirs—Two of my girls, friends and myself have been using your Danderine for several months. We all commenced using it about the same time, and we are seeing which of us can grow the longest hair. For a month we used it once a day, after that twice in three times a week. All of our hair is much thicker than it was, and mine is fully seventeen inches longer. It seems the longer it gets the faster it grows. Are we using it to the very best advantage? Kindly answer at once.

Respectfully, Ruth Hardy, 815 S. 4th Ave., Chicago, Jan. 30, 1902.

We here show photographs of three young ladies who are having a hair-growing race, the loser to pay for all the tonic used. There is also another agreement entering into the wager upon which we are not fully informed concerning matrimony. We will try and show their photographs again when the contest is closed.

### Nearly Every Lady in the City of Chicago Uses Danderine

and if you will look at the wealth of brilliant and beautiful hair exhibited in the above photographs you will see the reason for it. It is the only remedy ever discovered that will make hair grow and stop it from falling out (we back that statement with Five Thousand Dollars). Chicago, St. Louis, Kansas City, New York and Boston dealers are now buying it by the car load in order to supply the tremendous demand, which its unbounded merit has created. Pretty substantial proof of merit, is it not? Be sure you get the genuine, made only by the Knowlton Danderine Co., Chicago.

**FREE** To show how quickly Danderine acts we will send a large sample free by return mail to anyone who sends this advertisement to the KNOWLTON DANDERINE CO., CHICAGO, with their name and address and to cents in silver or stamps to pay postage.

he has a talent for public speaking, so much the better for him. Westerners adore oratory, and consider it almost more important than that there should be a professor to teach their sons how to speak than that there should be professors to train their minds so that they should have something to say. The president is obliged to travel around the state making addresses at high-school commencements, at Teachers' Associations, at every kind of educational gathering that ingenuitly can devise; not to speak of festivities at home, such as alumni banquets and the like. His travels over a large state, with railroad connections which might often be more properly termed disconnections, resemble in their vicissitudes those of a missionary bishop, with some advantages on the side of the latter. I once heard the president and the bishop comparing notes. Said the former: "What do you do, bishop, when you have only one sheet to your bed?" "I double it," replied the bishop, "and get inside." "But suppose they put another man in the same bed?" "That," said the bishop, "hasn't yet happened to me."

Pilgrim for April.

The April Pilgrim is announced as a number especially devoted to the forthcoming biennial conference of the General Federation of Woman's Clubs to be held at Los Angeles, Cal. The articles especially bearing upon this, are: Los Angeles, the Convention City," a lavishly illustrated article by Edith M. Haverly; "The Federation of Woman's Clubs," by its present president, Mrs. Rebecca Douglas Lowe; "Twenty-Five years a Clubwoman," by Rev. Celia P. Woolley; "Notable American Clubwomen," by Bertha Damaris Knobe; Edwin Markham contributes a thoughtful article on the possibilities before woman-kind under the title "The Fruit of Her Hands." Two especially illustrated features relating to the conference, are a double page illustrated supplement of pictures of club-houses owned by women, and architectural plans for a \$4,000 club-house, suitable for a town of moderate size. Although so much space has been given to the distinctly feminine side of The Pilgrim, its literary and other features of interest to all members of the home circle are not neglected.

## EVERY FREIGHT CAR IN GREAT DEMAND

Milwaukee, Janesville and Other Cities Are Making Immense Shipments of Implements.

All the flat cars that railroads operating in Wisconsin have at their service are being taken from the interior of the state and placed to run as much as possible for the use of Milwaukee, Racine, Chicago and Janesville manufacturing establishments.

There is evidently a shortage of the most pronounced kind in flat cars, indicating heavy shipments. The orders just issued by the companies are to the effect that forty-two foot cars must be detained for the use as indicated except when otherwise ordered. Supt. Whalen of the Wisconsin division of the Chicago & Northwestern was the first to issue an order of this kind.

In reply to questions concerning these orders a railroad man said today: "The shipments of farm implements and other materials and contrivances shipped on flat cars is so heavy this spring that it has caused the superintendents to issue the orders to create a saving in time and to get more use out of the cars."

"There is every possibility that this year will be record-breaker in sales of farm implements, especially in the Northwest where thousands have sought out and secured homes this year. Other parts of the country also need implements and machines but the movement toward the Northwest is by far the largest."

"The movement in homeseekers is not at all decreasing and this means that the orders for machinery will be still more increased. Northern Wisconsin receives a large share of the total."

"In other cars there is no shortage, but nevertheless, the surplus is about nothing. The companies are managing to get along fairly well, and a slight but general increase in shipments will produce another shortage." Janesville machine manufacturers heavy demands on flat cars would be still heavier, said one of them today if the orders could be filled as rapidly as they are wanted.

**Agree on Creed Revision.**  
Pittsburg, April 3.—It is now understood that the Presbyterian creed revision committee will get together next Wednesday in Washington on a unanimous report, so as to save serious trouble in the assembly. It is believed that it will be adopted as a compromise measure by all the members of the committee.
